Top Story

Acquisition of Alternative Power Solutions and Opening of New Powergen Hubs Pave the Way for Curtis Power Solutions' Expanded *mtu* Territory

As of January 1, 2022, Curtis Power Solutions expanded its *mtu* sales and service territory to include the entire state of Pennsylvania and the central/western region of New York.

In March, CPS strengthened its Pennsylvania presence with the [acquisition of Alternative Power Sources](#), based in Gibsonia, PA. From its Greater Pittsburgh location, Alternative Power Sources serves the western Pennsylvania, Ohio, and West Virginia region. CPS, meanwhile, is also opening a power generation hub in Cheektowaga, a suburb of Buffalo, that will cover western and central New York.

Said CPS President and CEO Trip Harrison, "These are the two big next steps in realizing our plan to become one of the largest *mtu* distributors in the country, serving customers from the Canadian border to South Carolina."

Doing EPSS Installations

the Right Way: NFPA 110 Chapter 7

Often, it's in the worst of times — fires, floods, earthquakes — that backup power systems are needed the most. Discover NFPA 110 Chapter 7, dedicated to successful EPSS installations that provide prompt and reliable power, whenever it's needed.

Rolls-Royce Partnership Spotlight E-Fuels Powering a Climate-Neutral Future

To stop global warming and meet the goals set out in the Paris Climate Accord, power delivery systems and energy systems will have to become carbon-neutral. Fuels are one of the key levers we have. With e-fuels produced from green electricity, electricity generation and drive-power technology stand a good chance of going net-zero. Learn more in this quick two-minute video.

Project Spotlight

Doubling Down on Hospital Backup Generation

Curtis Power Solutions is the leader in emergency backup power generation solutions for hospitals and healthcare facilities up and down the East Coast. Our latest success story can be seen at the new 135,000 square foot, \$125 million Beebe Specialty Surgical Hospital in Southern Delaware, which will open its doors in May 2022. This state-of-the-art facility will provide regional communities with advanced specialty surgery and recovery technology.

Read on for a 2-minute overview of the unique double-wide generator system created by our team, working in partnership with The Whiting-Turner Contracting Company and consulting engineers WSP, that saves the customer space and dollars.
